and advisor to the Centre for Wireless Technology at Eindhoven University of Technology, The Netherlands. He was involved in many European research projects and reviewer for many projects. His present research interests are 5G, Radio-over-fiber networks, 60 GHz networking, energy-harvesting networks.

Sonia Heemstra de Groot holds M.Sc. degrees in Electrical Engineering from Universidad Nacional de Mar del Plata, Argentina and Philips International Insti-tute/ NUFFIC, The Netherlands. She obtained the Ph.D. degree in Electrical Engineering at the University of Twente, The Netherlands, in 1990. Since 2012 she is a full professor at Eindhoven University of Technology where she holds the part-time chair in Heterogeneous Network Architectures. Before she has had assistant and associate professor positions at the University of Twente and a full-professor position at the Delft University of Technology in Personal and Ambient Networking. After having worked some years as a senior researcher at Ericsson EuroLab, The Netherlands, she co-founded the Twente Institute for Wireless and Mobile where she has been Chief Scientist from 2003 to 2014. Her expertise and interests are in the areas of wireless and mobile communications, wireless networks, Internet of Things, wireless security, personal and ambient networks (co-inventor of the concept of personal networks and federations concept), vehicular networks, wireless indoor communications, and radio-based positioning techniques. She has coordinated and participated in many national and international research projects and has authored or co-authored more than 150 papers published in international journals or presented at international conferences.

CALL FOR PAPERS
Special Issue on Applied Cryptography and Security

This special issue will focus on the area of applied cryptography and security, in particular on the following topics:

- **Applied Cryptography,**
- **Practical Cryptanalysis,**
- **Cryptographic Protocols,**
- **Security Mechanisms Deploying Cryptography.**

The Special Issue will accommodate journal versions of selected papers from SantaCrypt 2015, a Czech and Slovak workshop to be held in Prague, Czech Republic, on December 3-4, 2015. In addition, papers from open call are welcome.

Deadlines:

Submission of manuscripts: November 15, 2015.

Notification of authors about the evaluation: December 15, 2015.

Submission of camera ready versions of accepted papers: January 10, 2016.

Guest Editors:

VÁCLAV (VASHEK) MATYÁŠ is a Professor at the Masaryk University, Brno, CZ, and Vice-Dean for Foreign Affairs and External Relations, Faculty of Informatics. His research interests relate to applied cryptography and security, where he published over 150 peer-reviewed papers and articles, and co-authored several books. He was a Fulbright-Masaryk Visiting Scholar with Harvard University, Center for Research on Computation and Society in 2011-12, and previously he worked also with Microsoft Research Cambridge, University College Dublin, Ubilab at UBS AG, and was a Royal Society Postdoctoral Fellow with the Cambridge University Computer Lab. Vashek edited the Computer and Communications Security Reviews, and worked on the development of Common Criteria and with ISO/IEC JTC1 SC27. He received his PhD degree from Masaryk University, Brno and can be contacted at matyas AT fi.muni.cz.

ZDENĚK ŘÍHA is an Assistant Professor at the Masaryk University, Faculty of Informatics, in Brno, Czech Republic. He received his PhD degree from the Faculty of Informatics, Masaryk University. In 1999 he spent 6 months on an internship at Ubilab, the research lab of the bank UBS, focusing on security and usability aspects of biometric authentication systems. Between 2005 and 2008 he was seconded as a Detached National Expert to the European Commission's Joint Research Centre in Italy, where he worked on various projects related to privacy protection and electronic passports. He was involved in the ePassport interoperability group known as the Brussels Interoperability Group. Zdeněk has been working with the WG 5 (Identity management and privacy technologies) of ISO/IEC JTC 1/SC 27. Zdeněk's research interests include Android security, smartcard security, PKI, security of biometric systems and machine readable travel documents. Zdeněk can be contacted at zriha AT fi.muni.cz.

PAVOL ZAJAC is an Assistant Professor at the Slovak University of Technology in Bratislava, Faculty of Electrical Engineering and Information Technology, Slovakia (FEI STU). He received his PhD degree in Applied Mathematics from FEI STU. His main research focus is in the area of mathematical cryptology, including mathematical principles of cipher design, and algebraic cryptanalysis. He also works on various application projects, including efficient implementation of post-quantum cryptosystems, and improving privacy of user data on mobile devices. Pavol can be contacted at pavol.zajac AT stuba.sk.
